

soave WINDING WORDS

Draw a line side to side or up and down to form common phrases or compound words. For example, go from the school to the bus to form "school bus." Then the next picture will be something that makes sense after "bus." There is just one correct path to get to the finish.

After you find the correct path, go back and circle the pictures of things every kid needs. Some kids live in poverty, which means their families can't afford everything they need. That's why sponsors and churches step in to help!
